PROFILE

Innovative Front-end Developer with a 3-year track record of delivering high-impact digital solutions using React.js and Next.js. Proficient in front-end architecture, UI/UX design principles, and Agile methodologies. Recognized for driving user engagement, enhancing application performance, and achieving organizational goals through effective cross-functional collaboration.

EDUCATION

Royal Melbourne Institute of Technology (RMIT University Viet Nam)
Bachelor of Information Technology

- GPA: 3.1/4.0

Ho Chi Minh City, Viet Nam
Feb 2022 — Dec 2025

EXPERIENCES

Web Designer & Developer
TEDxHoChiMinhCity

May 2024 — Oct 2024
Ho Chi Minh City, Viet Nam

- Technologies: Figma, React.js, JavaScript, Tailwind CSS, MySQL.
- Boosted early ticket sales by 30%, reaching 500+ users within the first release cycle.
- Strengthened brand consistency and enhanced overall user flow across key touchpoints.
- Performed cross-browser testing and optimization for seamless multi-device performance.
- GitHub: github.com/TEDxHCMC/frontend
- Website: tedxhochiminhcity.vn

PROJECTS

Front-end Developer, E-commerce Platform for Invisible Digital Watermarking (origity.store)

Feb 2025 — Sept 2025

- Technologies: Next.js, JavaScript, Tailwind CSS, PostgreSQL.
- Contributed to reducing unauthorized reuse of product images by enabling watermarking automation, supporting sellers in protecting their business reputation.
- Architected the entire front-end foundation for a secure e-commerce platform, boosting performance and creating a fully responsive browsing experience across devices.
- Enhanced engineering efficiency and scalability by collaborating closely with back-end and UI teams in an Agile workflow, ensuring consistent feature delivery and a maintainable codebase.
- GitHub: github.com/TTechT-Capstone/TTechT-frontend

Front-end Developer, IELTS Speaking Practice Website (bd-frontend.vercel.app)

Mar 2025 — Jun 2025

- Technologies: Next.js, JavaScript, Tailwind CSS, PostgreSQL.
- Improved cross-device usability and reduced bounce rate during user testing.
- Attracted 50+ weekly active users within the initial release phase.
- Enhanced user comprehension and reduced friction in practice exercises.
- GitHub: github.com/ngckhanh/bd-frontend

AWARDS & ACHIEVEMENTS

Third Place – IT & Software Engineering Capstone Showcase, RMIT University

Oct 2025

- Project: **Seamless Security – Developing an E-commerce Platform for Invisible Digital Watermarking.**

SKILLS
